The **Aluminium Sack Truck** is a robust, high-performance solution for transporting heavy loads, with a **200kg load capacity** and a height of **1070mm**. Built with a lightweight yet durable **aluminium frame**, this sack truck provides easy maneuverability and long-lasting strength for heavy-duty use in warehouses, factories, and delivery applications.

The **puncture-proof wheels** offer added convenience, eliminating the risk of flat tyres and ensuring smooth, uninterrupted operation even on rough terrain. Whether you're moving boxes, appliances, or other bulky items, this sack truck is designed to make lifting and transporting items more efficient and hassle-free.
