The Armorgard FlamStor™ cabinet is expertly designed for secure, compliant storage of flammables and hazardous materials, such as fuels and chemicals. Engineered to meet stringent safety standards, including

those outlined in the Control of Substances Hazardous to Health (COSHH) regulations, this robust cabinet ensures maximum safety and durability in demanding environments.

- **Heavy-duty galvanized shelves** for exceptional strength and resistance to corrosion.
- **Reinforced double doors** for added security and durability.
- **Flush-fit handles with a two-point locking system** to ensure secure closure and prevent unauthorized access.
- **Durable powder-coated finish**, complete with clear warning signage for safety compliance.
- **Liquid-tight sump** designed to effectively contain accidental spillages.
- **Fire-resistant construction** built to provide up to 30 minutes of fire protection.

The FlamStor cabinet is the ultimate solution for managing the risks associated with storing hazardous substances while maintaining a secure and compliant workspace.
