Elevate your packaging with our Oxo-Biodegradable Small Bubble Wrap, designed to offer superior protection while being environmentally friendly. Perfect for cushioning delicate items during shipping, this bubble wrap combines the strength you need with the sustainability you want.

- **Eco-Friendly Composition:** Made from oxo-biodegradable materials, this bubble wrap breaks down more quickly than traditional plastics when exposed to light, heat, and oxygen, reducing its environmental impact.
- **Effective Cushioning:** The small bubbles provide excellent shock absorption, keeping your items safe from impact and vibrations during transit.
- **Durable Protection:** Despite its eco-friendly nature, this bubble wrap is tough and resilient, ensuring that your products remain secure and well-protected.
- **Versatile Use:** Ideal for packing electronics, glassware, and other fragile items, or for adding an extra layer of protection to prevent damage.
- **Convenient Roll:** Supplied in an easy-to-use roll format, allowing you to cut the exact amount needed for each package, minimizing waste and maximizing efficiency.
