

BLS 860 FLAT FOLDED VALVED RESPIRATOR FFP3 R D (10 BOX)

SKU: BLS860

£28.45 ex VAT

Stock: In Stock Order before 3pm for Next Day Delivery. 17

The BLS 860 folding mask provides optimum protection against particles and aerosols. The special filter material fulfills the requirements of EN 149 and also safely retains nanoparticles up to 0.001 µm. These particles usually penetrate very easily into the body due to their small size.

The breathing valve reduces the breathing resistance and facilitates the wearing of the mask over a longer period of time. This respiratory mask is especially suitable for handling CMR drugs (e.g., cytostatics, viral drugs), biological agents, and viruses.

- CAT III (PPE) In accordance with PPE Regulation (EU) 2016/425
- Type tested and certified
- Particle filtering FFP3 half-mask EN 149; DIN EN 149
- Retaining capacity at least 99,9%
- Protect against dust, smoke, and aerosols
- Protection against nanoparticles up to 0,001µm
- Climate-vent reduces exhalation resistance
- Foldable mask, separately packaged
- Can be worn for a maximum of 8 hours (not applicable to cytostatics)
- Shelf life of the masks under recommended storage conditions: 10 years
