LL621	In Stock Order before 3pm for Next Day Delivery .	5	80cm	£7.95 ex VAT

Dust Beater Sweeper Heads use static electricity to hold the dust into the mop and avoid the dust circulating in the air like a normal brush. They are great for reducing the amount of dust created when sweeping the floor and are used in Commercial and Industrial properties.

The Replacement Sweeper heads have buttons to fix them closed making it easy for the heads to be attached to the frame or removed for laundering.

Dust control mops are also known as floor sweepers or dust mops.
