Crafted from 100% natural, sustainable bamboo, Cheeky Panda's 4-ply toilet paper delivers an indulgent blend of luxury and eco-consciousness. The 4-ply design offers an unmatched softness and durability, providing a plush, spa-like experience with every use. Certified vegan by The Vegan Society in the UK, this premium bamboo toilet tissue not only pampers your skin but also reduces carbon emissions compared to conventional paper. With 100% FSC certification, each roll in this box of 45 contains 155 sheets, ensuring that your bathroom essentials are both exquisite and environmentally responsible.

A recent independent survey revealed that Cheeky Panda toilet paper stands out as the only brand that truly contains 100% bamboo, as stated in their advertising. While other brands made similar claims about bamboo content, some products were found to have as little as 2.7% bamboo.
