Delta Plus 250°C Heat Resistant Gloves have a latex palm coating which is manufactured from 100% naturally sourced rubber that is water repellent to ensure your hands stay completely dry in wet and damp conditions.

- Contact heat resistant to heated material with a temperature not exceeding 250°C
- Very good adhesion in wet or dry environments
- Made with 100% naturally sourced rubber
- Enhanced grip strength in wet conditions thanks to a thick and durable palm coating
