Ejendals Tegera 130A Welding Gloves offer lightweight leather protection with heat-resistant capabilities. Crafted from soft full-grain goatskin, these gloves provide excellent fingertip sensitivity for delicate tasks. With the ability to resist contact heat up to 100°C, they are ideal for welding and other high-temperature work.

Moreover, the Ejendals Tegera 130A Gloves are flame-retardant and can endure welding sparks and grinding splashes.

**EN388:**

Level 3 – Abrasion
