These HandSafe GN99 Powder-Free Blue Nitrile Gloves are manufactured from specially formulated Nitrile Butadiene Polymer. They are thicker than standard disposable gloves and have a force of 9 newton on breaking.

Suitable for use in a wider range of sectors - Medical, Veterinary and Dental, Food manufacturing and preparation, Automotive, Engineering and Manufacturing and Janitorial.

CE Certified as Class I Medical Device and Personal Protective Equipment (PPE) Category III by the European PPE Regulation (EU) 2016/425.

Tested in accordance with European standard EN1186 making it suitable for food contact.

Features:

- Strong Nitrile Gloves with a force of 9 newton on breaking.
- Non Sterile, disposable gloves in blue colour.
- Low in residual chemicals to reduce the risk of contact dermatitis associated with these chemicals.
- Tested to European Standards EN455: Medical Gloves for Single Use parts 1,2,3 & 4.
- Compliant with the Medical Devices Directive 93/42/EEC Class 1
- Manufactured in accordance with Personal Protective Equipment (PPE) by the European PPE Regulation (EU) 2016/425 as Category III PPE.
- Tested in accordance with European standard EN1186 and in conformity with EU regulation 1935/2004 for use with all categories of foodstuffs.
- Box of 100 gloves.
