

OPTREL SOFT HOOD LONG VERSION

SKU: OPSHLW

£80.60 ex VAT

Stock: In Stock Order before 3pm for Next Day Delivery. 2

The Optrel Soft Hood is the optimal solution for respiratory and face protection in dusty environments that do not require mechanical protection.

The soft hood protects the head and face by introducing purified air. The air supply comes from either an e3000X Powered Air Purifying Respirator or a supplied air system.

Thanks to the good fit and comfortable elastic band, it is suitable for almost head sizes. The distance of the visor can be adjusted individually.

The lightweight nylon fabric and generous cut make it comfortable to wear even for long periods of time. The wide panoramic visor with anti-fog coating always ensures an unobstructed view and basic mechanical eye protection.
