The new modern design and effective zig-zag edges are definitely more than a facelift. The new SuperMop picks up 30% more loose dirt, is 5% more absorbent and has a more even water release; reducing streaking and allows floors to dry quicker and more evenly.

The mono click handle connector has also been improved, increasing the connection force between mop head and handle by over 20% ensuring the mop heads stay securely connected during mopping.

Remove and kill bacteria!

Vileda Professional are experts in the anti-bacterial properties of silver ions and how to translate these benefits into our products. Independent tests** show Professional Supermop Ag has remarkable antibacterial activity, inhibiting the growth of bacteria (bacteriostatic activity) by 99.99%.

Hygiene

- Contains silver ions
- Independently tested to inhibit bacteria growth by 99.99%

- Oval design - allows easy cleaning of corners
- Colour-coded in four colours to avoid cross-contamination
- Machine washable at 60°C but can be washed up to 95°

Durability

- Very high resistance to detergents and chemicals
- Improved monoclick fitting - 20% better attachment force

Ergonomic

- Low friction, lightweight non-woven material
- Highly absorbent for spill pick up
- Releases liquids easily during wringing, to leave floors drier, therefore, back in use faster
