The **washable deck scrub** is designed for more heavy duty cleaning tasks and can be used on any hard surface. The brush is made with very stiff polyester bristles that help to lift ground-in dirt and stuck on food, as well as helping to remove grease build up and oil.

The extra stiff bristles help to clean in corners and where the floor and wall meet and are colour-coded to make segregation easier when you implement a colour coded cleaning system.

These brushes are very durable and can be rinsed/washed at up to 100°.
